

Turning Point Ministries Job Opening – San Diego Headquarters Database Administrator

Turning Point for God is the international radio and television ministry of Dr. David Jeremiah, senior Pastor at Shadow Mountain Community Church with a vision to reach every language group in the world with the gospel and the teachings of God's Word. From its modest beginning over thirty-five years ago, Turning Point is now accessible to 2.5 billion people worldwide every day through radio, television, and the Internet.

Position Summary:

The Database Administrator reports directly to the IT Manager and assists the Sr. Database Administrator in analyzing, designing, implementing, and maintaining operational databases.

Responsibilities include:

- Analyze, design, implement, maintain, optimize and administer assigned database systems.
- Establish and administer standard DBMS procedures and best practices.
- Ensure backups are taken of each database according to defined standards.
- Establish and maintain standards for development and distribution of corporate data.
- Develop, implement and maintain, as assigned, ministry's Reporting Services 'dashboard' portal for the accurate and timely dissemination and analysis of data for the User Community.
- Develop and maintain assigned MS-SQL store procedures – generally used to enhance business processes.
- Develop and maintain a handful of .NET and ASP .NET (C#, HTML, CSS) web applications.
- Train Users on the features/modifications of databases or assigned systems.
- Initiate system and process improvements that increase the quality of corporate data.
- Keep abreast of database and business intelligence trends in the industry.

Other Duties:

- Please note this job description is not designed to cover or contain a comprehensive listing of activities, duties or responsibilities that are required of the employee for this job. Duties, responsibilities and activities may change at any time with or without notice.

Requirements:

- Bachelor's Degree in Computer Science or equivalent experience.
- Minimum 2 years of experience in database administration on MS SQL Server 2012/2016.
- Demonstrated knowledge of MS Reporting Services, Data Transformation Services and other SQL Server related DBA tools
- Knowledge and/or proficiency in designing and implementing data warehouses and their associated business intelligence tools
- Proficiency in MS Excel, including pivot tables, Word, and Windows
- Effective written and verbal communication skills
- Demonstrated ability to work well within a small development team structure

Other:

- Salary commensurate with experience
- Extremely competitive employee health and retirement benefit programs
- Position is in Turning Point's international headquarters in Lakeside, CA.
- Must be a like-minded believer and share our passion to deliver the Word of God to the World
