

Turning Point for God is the radio and television ministry of Dr. David Jeremiah, senior pastor of Shadow Mountain Community Church. It is an international ministry with a vision to reach every language group in the world with the Gospel and the teachings of God's Word. From a modest beginning thirty five years ago, Turning Point is now accessible by 2.5 billion people worldwide every day through radio, television, and the Internet.

Position Summary:

The Web Developer reports directly to the Senior Web Developer. This employee works as an integral part of the Web Team, demonstrating a strong grasp of object-oriented programming, and experience with PHP, SQL, jQuery, and cloud infrastructure. An ideal candidate has an eye for detail, creativity, and security, and is a reliable team player who can both drive and assist projects well.

Responsible for designing, coding, and modifying websites, from layout to function and according to determined specifications. Strives to create visually appealing sites that feature user-friendly design and clear navigation. Specifications may be determined by Web Team or Creative Leadership based on goals of a particular project.

Essential Functions:

- Develop/maintain website applications and pages per specifications and schedule.
- Integrate ministry websites with other business processes per specifications and schedule.
- Technical management of the ministry's content management system including application and template development, permissions management, topic list management, etc.
- Develop and perform complete unit-testing of website applications with Web Team.
- Keep source code well-maintained at all times per department standards.
- Work with our media team and media-hosting provider(s) to incorporate various media assets onto websites.
- Regular exposure to project stakeholders, as well as the authority and scope to apply your expertise to many interesting technical problems.
- Understanding of UI, cross-browser compatibility, general web functions and standards.
- Actively participate in Internet-related strategic and tactical planning.

Other Duties:

- Please note this job description is not designed to cover or contain a comprehensive listing of activities, duties or responsibilities that are required of the employee for this job. Duties, responsibilities and activities may change at any time with or without notice.

Qualifications:

- 2 to 5 years of web application development experience
- MUST have demonstrated proficiency in the following technologies:
 - Object-oriented programming languages (PHP/non-Wordpress or C# preferred)
 - JavaScript (jQuery experience preferred)

- XHTML/HTML/CSS with ability to author HTML without reliance upon a code-generating tool such as Dreamweaver/FrontPage
- Design, and deployment of relational databases (MS SQL Server preferred)
- SQL programming language (Microsoft T/SQL expertise preferred)
- Web-servers and hosting of websites using Apache or Microsoft IIS
- Demonstrated ability to work well within a small development team structure.

Education:

- Bachelor's Degree in Computer Science or Computer Information Systems

Other Requirements:

- Position requires constant communication with colleagues
- Position is non-exempt, full time in Turning Point's international headquarters in Lakeside, CA.
- Must be a like-minded believer and share our passion to deliver the unchanging Word of God to an ever-changing world.
